SKILLS

Languages/Dev/DB: Python, C++, Bash, Java, Spring Boot, MySQL, MongoDB

Infra/Tools: Kubernetes, GitOps, GitHub Actions, Docker, Linux, Terraform, Ansible, Jenkins

Cloud/Observability: AWS (EKS, VPC, EC2, S3), Azure, Prometheus, Grafana, CloudWatch, Private Cloud

Soft Skills: Effective Communication, Team Collaboration, Adaptability, Learning Agility

PROJECTS

DevOps-Enabled Go Web Application | [GitRepo](#)

Feb' 26

- Orchestrated a production-style Go web application to simulate an end-to-end DevOps pipeline demonstrating CI/CD automation, containerization, and Kubernetes cloud deployment.
- Built the application with multi-stage Docker builds and designed Kubernetes manifests and Helm charts for scalable, modular deployments.
- Automated Docker image build and push using GitHub Actions CI and deployed the application on AWS EKS using GitOps-based Kubernetes updates and Ingress exposure.

Tech Stack: Go, Docker, Kubernetes, Helm, GitHub Actions, AWS EKS, GitOps, Ingress.

MuSys - AI Music Recommender System | [GitRepo](#)

Oct' 25

- Engineered an AI-based music recommendation system to deliver accurate mood-based song suggestions targeting 90%+ sentiment detection accuracy.
- Designed a scalable Flask backend integrating AWS Comprehend (NLP), Polly (TTS), and DynamoDB for mood detection, logging, and personalization.
- Containerized the application using Docker and deployed it on Railway enabling real-time recommendations with zero server maintenance.

Tech Stack: Python, Flask, AWS Comprehend, AWS Polly, DynamoDB, Docker, Railway.

TRAINING

Gokboru Tech | [Certificate](#)

Jun' 25 – Jul' 25

Cloud Computing using AWS

- Completed an AWS Cloud Computing training, working hands on 80% with EC2, S3, IAM, VPC, Load Balancer, Lambda, API Gateway, Docker & CloudWatch across security, networking.
- Gained practical experience in NLP, serverless workflows, containerization, NoSQL and CI/CD tools improving cloud and DevOps proficiency by 70%.
- Applied cloud, NLP, and serverless concepts in a real-world capstone project, working end-to-end across architecture design, AWS integrations, backend development, and deployment within the AWS Free Tier.

CERTIFICATES/CERTIFICATIONS

- AWS Certified Solutions Architect Associate | [AWS Certificate](#) Feb' 26
- AWS Certified Cloud Practitioner | [AWS Certificate](#) Feb' 26
- DevOps Beginners to advance | [Udemy Certificate](#) Sep' 25

ACHIEVEMENTS

- Earned a Top 5 spot in CloudClubs DevOps Workshop:** [Certificate](#) Nov' 25
Among 400+ participants and 30+ teams, leveraging AWS, Docker, and Terraform.
- Achieved AWS Academy Cloud Foundations Graduate badge:** [View Credential](#) May' 25
Demonstrated strong proficiency in AWS core services, cloud concepts, and architecture fundamentals.
- Ranked Top 10 in my university's club Hackathon:** [Certificate](#) Feb' 24
Among 1000+ participants and 50+ teams.

EDUCATION

Lovely Professional University

Phagwara, Punjab

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.82**

Since Aug' 23

ST. Francis Junior College

Midhilapuri, Visakhapatnam

Intermediate; **Percentage: 93.3**

Oct' 21 – Mar' 23

ST. Anns CBSE School

Bakkannapalem, Visakhapatnam

Matriculation; **Percentage: 87**

From Mar' 21
